Dear Malcolm

Late February we became aware of your website and placed an add as a home owner, (after we had offered a free holiday to our friends and family for the period of 3 weeks over the Easter break but unfortunately we didn't have any takers).

We were starting to get desperate for a house sitter to look after our home and two small dogs, we then searched the internet and found your website, we were very impressed with the testimonials and decided to join the Happy House Sitters and placed an add about 9pm one evening and had our first reply by 8am the next morning. By the end of the week we had received 4 or 5 other replies all very good offers.

We were very impressed with our first reply and contacted them to arrange a meeting, this we did about 10 days later, they have their own little dog which they wanted to bring with them to ensure all 3 dogs got along, they did really well and they were impressed with our location. It was a mutual decision by both parties that the position was filled.

We were very impressed with Sue and Mike and fully recommend them as excellent house sitters, they looked after our home, garden, dogs and wild birds excellently, our 2 dogs missed them when they returned to their own home. We found Sue and Mike very friendly and excellent company with us before our departure and after our return. We would have no hesitation in using Sue and Mike again when we require a house sitter in the future.

We will be using your website again when next we require a house sitter if Sue and Mike are not available.

You are quite welcome to use any of the comments above for the Home Owners Testimonial.

We would appreciate a Fridge Magnet being sent to us please, address details are as follows:

Betty and Alex, [REDACTED]
