Hi Malcolm

We have now used Happy Housesitters on two occasions this year and both experiences have been really excellent. We have two more assignments to come. Our house sitting is over a six months period in 2010 and some of our assignments (2 more) have been arranged outside the Happy House Sitters environment. But the principles I outline below and the experiences have been identical in each instance we have house sat.

We have found that we really clicked with the house owners so far and on each occasion we had an opportunity to meet them a little while before the house sitting assignment and we had a meal together. This occurred after they had agreed that we should be the chosen house sitters and it was more to confirm our suitability than it being part of the selection process.

We took the house owners to the train station/airport for their departure and we picked them up on their return and had a meal waiting.

We have already met the two future house owners - once again for a meal - and we look forward to staying in their houses.

We have always had an animal to look after which we prefer. We always give the animals a really good time and we are confident that we leave them, as well as the house owners, with good feelings.

We are very pleased with Happy House Sitters and when we return to live in our own house, we plan to use the service as house owners when we next travel.

Many thanks for an really excellent service Malcolm.

Cheers

Nikki and Andrew

Hi

I'm writing to you to get some feedback on your house sitting experiences. Would you like to write a few sentences or so about the sits you have had through Happy House Sitters? Have you saved some money?

Have you had an unusual experience? Have you cared for some unusual or especially wonderful animals? Have you made friends with the home owner?

We would love to hear about your experiences and put them on the site for others to read.

Looking forward to hearing from you. Please send your story via return email.

Kind Regards
