Subject: Our House Sitter

We wanted to tell you that for many years, we have had friends and neighbours' teenage children 'house and cat sit', rather than putting the cats into kennels. This year, none of our friends or neighbours' children could do it. I searched the web for 'House Sitters', and ended up at your site, Happy House Sitters". We registered, even though I was a bit apprehensive as to the kind of person who registers as a sitter - would I be comfortable with them in my home?

We needn't have worried. The candidates were brilliant - we had a list of nurses, teachers, retired and serving police officers, professional people and so on. We ended up with a professional lady who did an outstanding job.

Its great going away on holiday knowing your house is being responsibly looked after and your cats are being both fed and given affection. When we next go away for a long holiday, we'll definitely be using this service again. Thanks

Best regards,
Peter S [REDACTED]
