To whom it may concern,

In March 2004 I contacted Happy House Sitters to engage a sitter to mind my House, animals and garden for 3 weeks, while went on holiday. I have a very old little dog who would not have survived a kennel. This was a great way for her to remain comfortably in her own home, with no stress. It saved my family and neighbours from having to call everyday for garden & mail. The sitter I had was a mature male whom my dog related to very well. I also have a cockatoo bird who was very happy when I returned. I would recommend this wonderful service to anyone, the peace of mind is just fantastic.

Thank you for offering this service.
