Hello Happy House Sitters,

My name is Catherine G [REDACTED] and for nearly a year, I house sat for a lady who was travelling interstate for work. The house-sit was in Forest Lake, Brisbane.

She phoned me about 6 weeks after I had placed the ad with your service. We made arrangements to meet and we hit it off right away and she phoned me soon after to say she wanted me to take the position.

I moved in and we lived together for a few days before she actually left, so that I could learn the routine of the house with the animals, get contact phone numbers of relatives, bin night etc.

It was a great way to live very cheaply. My husband and I were going through a very amicable separation and it was a nice way to not add any more debts and financial complications to our lives. I got to stay in a lovely home and I know she appreciated having someone there who was very handy in the kitchen - as I always had something whipped up for her when she occasionally would fly back to visit!

As a result of my stay in Sheryl's house (Sheryl S [REDACTED]) we have now become really good friends - a bonus we didn't expect! We stay in touch and talk regularly.

Thank you for your service. I recommend this for anyone!

Kind Regards,
Catherine G [REDACTED]
