**Subject:** house sit

Dear Happy House Sitters,

We are just writing to say what a fantastic service you provide. We recently listed our home for a house sit and within a week had a number of responses. After interviewing a few people we decided on one particular person to care for our home and animals while we were away. This was the first time that we have used a service like this and although we had some 'nerves' about leaving our home to a complete stranger; we followed the guidelines on your website and everything worked out really well.

We are already planning our next holiday and will definitely use Happy House Sitters again to find a house sitter!

Regards,

Remain and Natalie L [REDACTED]
